House.

Conger said that the bill relating to the tariff had yesterday been referred to the committee on revision of laws instead of the committee on ways and means as the new rules required.

Townshend said the bill was properly referred.

Reed intimated that the bill had been smuggled into the house, which term Townshend said would have been a falsehood if used and men of honor knew what that meant.

Garfield moved to amend the journal and refer the bill to the committee on ways and means.

Nicholls moved to table this motion; agreed to by a vote of 118 to 117, Cannon, Field and Robinson voting with the democrats in the affirmative; Buckman, Bell, Hofer, Clymer (Wis.), Wilson, and F. Wood voted nay.

Townshend moved to reconsider the motion laying that motion on the table; rejected 123 to 114, this time the republicans securing several recruits.

Townshend then wished to withdraw his motion to reconsider but the chair ruled that it had passed from his hands.

BY ATLANTIC CABLE.

Lord Cranbrook Talks of the Afghan Situation.

LONDON, March 22.—In the house of lords to-night the earl of Dunraven called attention to affairs in Afghanistan. He said that the government had lately been very reticent regarding their Afghan policy and the present position of affairs was so anomalous that he thought some explanation ought to be afforded the country before the house adjourned. Lord Cranbrook, secretary for India, said that he objected, while intricacies still existed, to lay down any definite line of frontier, or to stating how they intended to assert their supremacy in Afghanistan. Herat was not of paramount importance, and would become still less important when we are in possession of the district of Candahar and the different passes. There was no understanding with Russia on the subject of Herat, nor was there any arrangement with Persia on the subject. There might be certain circumstances under which the tenure of Herat by Persia would not be dangerous. He looked forward with great hope to the pacification of Afghanistan and to its being governed, under due precautions, by rulers of its own.

Beaconsfield on the Depression of Trade and Agriculture

LONDON, March, 22.—In the house of Lords last night the duke of Rutland, conservative, called attention to the depression of trade and agriculture. Beaconsfield contended that revival of trade was general and he believed that it would last. To insist on reciprocity by other countries, he said would be impossible now we had parted with our import duties. The present state of things, Lord Beaconsfield said, was brought about by a succession of bad harvests.

A Matter of National Courtesy.

LONDON, March 23.—At a conservative meeting, held in Hackney to-day, Sir Stafford Northcote severely condemned Gladstone for using offensive language towards Austria. He read a dispatch from O. H. Elliot, British ambassador at Vienna, dated yesterday, stating that Baron Von Haymerle, minister of foreign affairs, desires to disavow the language attributed to the emperor by Gladstone. Gladstone in a recent speech said that the emperor had called him a pestilent fellow. The meeting was very uproarious, owing to the presence of a number of liberals. Sir Stafford Northcote was obliged to bring his speech to a speedy close on account of the disturbance.

NEW YORK, March ...—... [illegible] ... Only a few ... [illegible] ... delay ... [illegible]

Arrival of Grant at Galveston.

GALVESTON, March 23, 11 A. M.—The *City of Mexico* has arrived here with Gen. Grant on board. There was much rejoicing and considerable excitement at the wharf when the vessel entered the harbor and the Grant party disembarked. Deafening cheers rose from the shore and shipping, and a military salute from a battery added to the welcome. The mayor and city officials, and Gen. Ord's staff formed a procession of considerable length in which nearly all the societies of the city joined. There was a reception in the hotel parlors. The banquet was postponed till to-morrow night.

Fatal Pistol Practice at Lebanon. A. M. Ferrier Shoots and Instantly Kills W. F. Powell. A Woman the Cause. Ferrier in Custody.

SPECIAL DISPATCH TO THE OREGONIAN.

ALBANY, March 23, 1880.

Particulars of a fatal shooting affair which took place yesterday at Lebanon in Linn county has just been received. During an altercation between A. M. Ferrier and Wiley F. Powell, the former drew a pistol and shot the latter, killing him almost instantly. Powell, it is said, has had several quarrels with Ferrier during the past two years, growing out of alleged improper intimacy with his (Powell's) wife.

Immediately after the shooting Ferrier mounted a horse and started for this city. On arriving here he at once surrendered himself to the authorities. He is in jail at present awaiting examination, which will be held on Thursday 25th. He has employed the firm of Humphrey & Wolverton to defend him. Great excitement prevails in Lebanon over the tragical affair.

HAVANA, March 23.—The following intelligence has been received via St. Thomas: In San Domingo peace has been restored and business is brisk. In Hayti a bill passed imposing a duty of 10 per cent. on Mexican silver. This measure was considered sufficient to cause a revolution.

COLUMBIA RIVER BAR.

TO THE EDITOR OF THE OREGONIAN

It is hard to resist the temptation of "putting in my oar," in connection with the loss of the ship *Dilharree* at the mouth of the Columbia river, with a large cargo of produce. I have no purpose to lodge the blame with any particular person or organization of persons, as the tugmen, bar pilots, etc., but a desire to offer a few suggestions which may, possibly, have weight in preventing losses in future. While I cannot lead myself to believe that there is sufficient care used in chartering ships that are specially adapted to the Columbia river trade, the questions which present themselves more forcibly are, what are the causes of these losses? How in a measure are they to be remedied or avoided hereafter? Looking these questions squarely in the face and examining the chart and bar with the eyes of one who has had many years of experience in various branches of navigation in different waters, including the shoals, swirls, rapids and tortuous passages of the St. Lawrence, Niagara, Detroit, St. Clair, Sault Ste. Marie, at the bars of the Mississippi and the rivers emptying into the Mexican gulf, the Atlantic and the great northern lakes and for nearly four years past along the coast of the Pacific from the Mexican boundary on the south to the Yukon river on the north, with an opportunity to see something of the Columbia river bar, I consequently feel less hesitancy in offering suggestions, which if profited by I cannot but think will lead to good results in reducing risks and losses of life to and from the Columbia river.

The importance of safe passage over this bar is increasing in a rapid ratio corresponding to the development of railroad construction, up river improvement and the settlement of the country. Ships that carry their loads on over twenty feet draft of water should be refused charter and insurance for crossing the Columbia river bar. The towing should be done with two or three able tugs to each ship, one or two of these doing the towing while the other is astern of the ship ready to slue her in any direction and keep her pointed direct in the channel for the deepest water while passing through the eddies and cross currents and making the sharp turns, so as not to depend too much on the ship's rudder and sails for steering while drawing nearly or quite all the water in the channel and sucking bottom, on either port or starboard bilge liable to rub a mud or sand lump, slue her around and point her for the channel bank, or the eddy or cross current cause her to take a sheer. With a tug astern ready to counteract in either direction and keep her straight in the channel, the risk is materially lessened. Of course it will cost a little more for a time but this would soon be saved in the cost of insurance to say nothing of the reduction of losses. What nautical man believes if the *Dilharree* had drawn but twenty feet instead of twenty one feet eight inches as reported (a difference of twenty inches draft) and the precaution mentioned above of a tug astern to prevent her taking the sheer or to counteract her bad steering qualities she would have passed safely to sea? Every loss tends to increase underwriters rates and of course comes back on the farmers in putting down the price of grain in the future. How is the difficulty to be remedied? It must be accomplished by concerted action of farmers' unions acting conjointly with boards of trade, chambers of commerce and the underwriters to secure proper regulations governing towing and pilotage. The producers and consumers are the ones most interested for all the loss must be paid for out of returns ... on further sales of produce and ... from increased price of ... and ... of the people. Farmers are slow to ... public benefit and ... [illegible] ... [illegible] SAFETY.

THE BREACH WIDENING.

Conferences between the Workingmen and the Citizens' Union Committees Come to Naught.

AN ACCOUNT OF LAST WEEK'S NEGOTIATIONS.

Coming Local Elections Destroy the ... Feeling Supposed to have Existed Between Contending Factions.

[SPECIAL DISPATCH TO THE OREGONIAN.]

SAN FRANCISCO, March ...—... last week I was ... [illegible] ... had taken place between the committees ... [illegible] ... Mayor ... [illegible] ... parties between business and workingmen ... mutually ... [illegible] ... extreme measures on the part of the citizens ... [illegible] ... appeared to be progressing towards a peaceful settlement. Within the last few days however a complete change has occurred ... turned to its fulminations, newspaper war has broken out afresh and apparently all overtures have been thrown aside by both parties.

To correctly understand the condition of affairs it will be necessary to go back to Monday, the 15th inst. For some days prior to that steps had been taken by third parties with the view of bringing the leaders of both sides to a better understanding of each other. This conference was not sought by the citizens union but certain representations made concerning views and wishes of the workingmen's leaders induced many of the gentlemen connected with the union to believe that good might follow an exchange of ideas. It appeared as though so little was needed to quiet the agitation and restore confidence to the community that the necessary assurances were given workingmen, and in return certain pledges exacted from them that would cover the whole ground of disagreement without any sacrifice of dignity or determination to put an end to existing troubles. In furtherance of this object on the morning of the 16th inst., the executive committee and some other members of the council of the citizens union met and selected four gentlemen whose names are withheld at their desire, to act as a committee of conference with the understanding that they should consult with the leaders of the workingmen and report to the council the result of the interview. In the afternoon these gentlemen met Mr. Kalloch, representing the workingmen at the mayor's office. The conference lasted nearly two hours and was pronounced harmonious and satisfactory. The whole subject was gone over and the grounds of disagreement discussed. No definite agreement was reached but it was substantially understood that if the citizens union would give the workingmen assurances that there should be no illegitimate interference with the execution of the order of the board of health, providing for the abatement of the nuisances in Chinatown that in return the workingmen's military companies should disband and give up their arms and that all violent and incendiary agitation should cease and things be allowed to resume their natural course in the city. In the evening of that day Mayor Kalloch called together the ward presidents of the workingmen's party, and submitted to them the propositions that had been considered. As a result the ward presidents adopted the following resolutions:

WHEREAS Mayor Kalloch has reported to us the substance of an interview he has had to-day with [here follows the names of the committee of conference] in which these gentlemen express the opinion that it is within the power of the workingmen's party to take such action as will effectually allay the excited feeling of the public mind and introduce a better condition of affairs for all citizens and bring the capital and laboring classes into a mutual understanding which will be better for both and all concerned; therefore,

Resolved, That we should hail such a result with unbounded satisfaction, and are ready and willing to do anything in our power consistent with our political convictions and conscientious scruples to bring it about.

Resolved, That we request the mayor to act as a committee of conference with the gentlemen above named and suggest to the workingmen's party in such manner as he may see fit, what steps if any it is in our power to take or what further practical assurance if any, we can give of our cordial desire to inaugurate a state of public policy which shall give confidence to capital and remunerative employment to labor.

Copies of these resolutions were furnished to the committee and on the succeeding evening a council of two hundred of the citizens union met at the chamber of commerce. The proceedings were secret, but it is understood that the report of the conference committee and the resolutions of the ward presidents were submitted and excited much opposition, many being in favor of harsher measures and repudiating the idea of an arrangement of any kind short of absolute and unconditional surrender of the workingmen. The next day Kearney was sentenced by the police judge and the severity of the punishment awarded him evidently had the effect of stiffening the determination of the extremists of the citizens' union and still further remove any hope of an amicable settlement. It is also beyond doubt that political questions have entered largely into the matter and are operating to widen the breach. The local election is about coming off for the selection of fifteen freeholders to frame a city charter.

The election of state senator vice Desty declared ineligible will occur at the same time, and combinations are also afoot regarding the United States senatorship, all of which are made to enter into this question of restoring quiet to the city and militating against any mutual action between contending factions. Meantime some further conferences have been held between the committee and Mayor Kalloch but nothing is known of what passed and from present appearances the extreme party has obtained the ascendency on both sides. It is difficult to forecast the result but it now looks as though nothing has been gained toward a final settlement of the troubles and that, if anything, the situation is more unsatisfactory than ever.

The Kearney Appeal Case

SAN FRANCISCO, March 23.—The experts appointed to count the cash in the city treasury find everything straight. It is announced that the appeal case of Dennis Kearney has been assigned by Judge Dunnenfield to Judge Freelon's court and will come up in that tribunal at 10 o'clock to-morrow.

Injunction Granted

SAN FRANCISCO, March ...—The supreme court this morning sustained demurrer of election commissioners to the injunction granted by the board of supervisors ... restrain the commissioners from ordering an election for the choice of fifteen freeholders to frame a city charter. The decision does not decide the legality of a call for an election but merely decides ... proceedings under injunction ...

Our Farmers Bear the Enormous Burden of Protection

[illegible]

... to have come ... the duty on ... [illegible] ... in the way of protection ... [illegible] ... competitors ... [illegible] The duty ... [illegible] ... The proposition ... [illegible] ... the system ... There is ... probability that Mr. Turner will succeed ... congress to pass this part of his bill.

The duties on agricultural implements depend on what the implement is. If they are steel or if steel is a component part thereof they are subject to a duty of ... per cent. If they are of wood or if wood is the chief component part thereof they are subject to a duty of 35 per cent. These duties are, of course, a burden upon farmers. But so are all other ... The agricultural interest is one that is not, and in the nature of the case cannot be protected. It is true that duties are laid on agricultural products but they afford no protection except possibly along a few points along the frontier. The great agricultural staples cannot be protected because we have an advantage over most other countries in their production and are able to export them at a profit in vast quantities. A duty on cotton, corn, pork, wheat, or any other staple American product of the soil would not protect the American farmer. Our farmers bear the great bulk of the enormous burden of protection and they get nothing worth having in return. When they come to see how they are fleeced for the benefit of manufacturers they will send men to congress who will see to it not only that agricultural implements and machinery are put on the free list but that the whole tariff is placed upon the revenue basis. So long as the beneficiaries of the tariff system can make the farmers believe that it benefits them there will be no tariff revision worth having and it will make very little difference whether agricultural implements are put on the free list or not.

Mr. R. A. Habersham is engaged with a party in making a survey of the Columbia river bar.

The bridge across the Santiam at Blair's is now completed. It is a substantial structure 682 feet long including aprons and has one span of 112 feet and another of 90 feet. This connects Fox valley with Marion county and will be a great convenience to the traveling public.

The *Astorian*: Work of making cans was generally begun on the river at all canneries yesterday. The amendment to the revenue laws passed congress not a day too soon to allow the cannery men to avail themselves of the privilege of using domestic lead in the manufacture of cans for export, foreign and enable them to reap the benefits of the drawback. It was a simple matter of justice but required much trouble on their part to secure the needed legislation.

The long feared and much sought for man under the bed was found at Pendleton by Mr. B. W. Griffin one night last week. He jumped from under and out into darkness and was lost to view for a while but Dick followed him up, found him in a saloon and put him in jail.

A former resident of Wasco county writes to THE OREGONIAN: "I have read your articles regarding fees for witnesses. In Wasco county our experience with some certain districts was, that just before court time they would get up a quarrel in which every one participated, and then come into court and get their mileage and fees, and while in The Dalles do their trading for the year, thus killing two birds with one stone."

Enterprise Lodge, I. O. O. F., of Walla Walla will soon erect a large hall.

PUBLIC SCHOOLS COMPARISONS

To some person or persons unknown we are indebted for a copy of the official report of the public schools of the city of Oshkosh Wis consin for the year ending April 1 1879. We make some use of it for the purposes of comparison with the public schools of Portland. The whole number of children of school age in Oshkosh is greater than in Portland but the average daily attendance appears to be less. The following exhibit of the cost of the Oshkosh schools is made

Current expenses for the year ending March 31 1879 ... $[illegible]
Interest and depreciation on permanent investments at 6 per cent ... [illegible]
Average number of pupils in daily attendance as per monthly reports of principal for each school 1 581
Cost for each pupil in daily attendance $ 23 89

If the interest and depreciation on the buildings and equipments be left out of the calculation and the estimate based only on the current expenses the rate per capita will be $17 30

There is a question as to which of these two methods is the correct one in computing the cost of education per pupil. The national bureau of education has adopted the first—that of computing by average daily attendance and including interest and depreciation

It will be seen that this is a rate far below the cost of the schools of Portland. Yet there are in Oshkosh nine public school buildings in which six male and forty four female teachers are employed. The Oshkosh schools have a total of fifty teachers against forty three in the schools of Portland. Grammar and high schools are maintained there as here.

The school population of Oshkosh is 5409 while that of Portland according to the reports last published is 4223. But the superintendent of the Oshkosh schools reports that "there will be no difficulty in keeping the expenditures of the ensuing year within the limit of the amount expended for the year just closed —namely $27 358. The directors of the Portland schools report the actual running expenses of the schools for the past year to have been $39 726 34 to which are added items classed as "unusual expenditures," amounting to $38 282 89 more. And we must have for the ensuing year $67 500 or $48 200 for expenses of the schools without including the building loans.

Comparison of these figures makes the greater expense of our schools sufficiently plain. The greater part of the difference is in the salaries of teachers. At Oshkosh the highest salary—$1750—is paid to the principal of the high school. Other principals receive but $650, while assistants are paid salaries ranging from $360 to $450.

But at Oshkosh, as in Portland the high school is the parasite which absorbs an extravagant proportion of the school revenues being nearly one third of the whole. On each scholar in the high school $38 08 is expended while the average expenditure for all the schools is but $17 30. Yet the superintendent there, adopting the notion which has also become prevalent here, regrets that so much is squandered on the primary schools. "We pay too much he says "for dry nursing the trundle bed portion of our population in the primary departments." Probably the next improvement will be to recommend the abandonment of the primary departments altogether. These notions as to high schools are impairing the efficiency of the common school system all over the country, and unless checked will ere long render it worthless.

AN ASSUMPTION EXAMINED

Senator Conkling, urging upon his Utica convention the programme of instructing New York's delegates for Gen. Grant, put his plea on the ground that Grant, if elected, would be certain to secure the seat —the argument implying that Grant, being the "strong man" could do what no other person could do in the possible event of trouble over the count. His name it was assumed would overawe all attempts to set aside the result of the election. The *Nation* examines this assumption thus "Are we to understand that if Grant should seem to be elected the house and senate will be so afraid of him that they will not venture to reject any state certificate which gives him a majority, or that if they do reject such a certificate the house will be afraid, voting by states to elect anybody but him? If so what will they be afraid of? What is it that is to make him more terrible to the majority in congress than any other American citizen in a similar position? Also, suppose that they are not afraid, and do carry out their programme what will happen if Gen Grant is not satisfied? How will he 'lawfully and peaceably' seat himself? It seems to us that the public is entitled to full particulars on these points. Gen Grant does not expect to get into the presidency by supernatural agency. Now, if as is always possible the majority in congress should always acting under the forms of law do what Mr. Conkling considers their worst how will Gen. Grant get into the presidency? These are very hard questions. We believe that any man who is justly elected will be seated. The American people, as rulers of their country, are not yet ready to abdicate in favor of anybody. There will be a pressure of public opinion an overwhelming moral force, which will sustain the ascertained will of the people. It is not so much a matter of consequence what party shall have the government as that the government will be maintained. Gen Grant, if elected shall be instated but not more easily or certainly than Mr Blaine Mr. Tilden Mr Sherman Mr Washburne, Mr Bayard, or any other citizen who may have the electoral majority

AMERICAN WHEAT AND MEAT

In a paper on American production of wheat and meat read by Finlay Dunn, at a recent meeting of the London Farmers club is a valuable collection of statistics with the comparative cost of production of the two commodities named in England and in the United States. Mr Dunn pointed out that that the United States at present produces about one-fourth of the wheat grown in the world. The wheat area is upward of 32 000 000 acres, or ten times that of the British isles. He gave figures showing that the cost of production of food in the states is considerably less than in England, the cost of cultivating an acre in America being 37 shillings as against 43 in England. He showed that the American farmers were beginning to increase their yield of wheat per acre and calculated that they obtained 14 shillings an acre profit, giving an annual gain on the 32 000 000 acres of wheat sown of £22 000 000. Speaking of the means of which the Americans were unless fully endeavoring to cheapen the cost of bring ng their produce to the consumer he said that wheat could be produced in America for 25 shillings per quarter forwarded 1000 miles by railroad lake or canal and 3000 miles across the ocean to ports of the United Kingdom for 15 shillings and 20 shillings for [illegible] ing, insurance and commission charges a total of 42 shillings per quarter affording a profit to farmer carrier and shipper. He then presented a discouraging contrast by thus giving the position of the British farmer

When the sun shines in England and a good crop of wheat is properly matured the farmer expects to cash on his fuller buried wheats about three shillings per quarter more than can be got for the inferior ordinary No. 2 American. With the wet of indifferent seasons there can be only a crop and precarious profit in growing wheat in this country at 48 shillings or 45 shillings. What can be substituted for it on poor clays and thin weak soils which produce at best about three quarters of an acre comes not within my subject. With better prospects it will continue to be grown on soil where four quarters can generally be counted on where it is restricted to [illegible] and on the sale of straw and where, in addition to the grain the straw will realize £1 or £ an acre. It is only under such favorable circumstances that British farmers can depend upon profitably producing wheat at 40 shillings [illegible] which with exchanging culture [illegible]

[illegible] probably be [illegible] rate [illegible] to come

Mr Dunn then exhausted evidence to the effect that the best meat produced in the United States [illegible] held that the American [illegible] steers were [illegible] at [illegible] producing [illegible] per cent as [illegible] sheep English flock must [illegible] The concluding [illegible] address will [illegible] fail to be [illegible] interest to Americans is as follows

[illegible] year to come America will [illegible] be [illegible] of [illegible] plus [illegible] of [illegible] meat. The exports [illegible] although hitherto limited must undergo considerable [illegible] of the best [illegible] kingdom will take the largest share [illegible] live cattle will come freely during summer [illegible] fewer weather can be counted on the ocean charges are £3 to £4 per head with [illegible] charges extra covers the cost of food and attendance during the voyage. For about £5 a bullock which would be purchased at two pence per pound dead weight can thus be brought from the native ranges on the eastern slope of the Rocky mountains and landed in Liverpool. This transit charge would add less than 2½d per pound to his carcass of beef. The transport of dead meat is still less. The Kipe? of beef slaughtered in New York and other Atlantic ports and brought over in cooled chambers reaching Great Britain in excellent condition is disposed of at the leading ports at 6d. Large foreign supplies of really good meat offered wholesale at 6d must pull down the price of ordinary English meat to 7½d or 7d. The British farmer was at some years ago to make meat at 6d or less. We must do so again

Mr Dunn's opinions are of especial value owing to the fact that he accompanied Messrs Read and Pell the parliamentary commissioners in their trip through the great northwest last summer and he consequently enjoys the benefit of personal observation

Among the democratic nominations in Baker county is that of A J Lawrence for the legislature. If there is to be anything like economy and reform in the legislature at its next session all men like Lawrence should be beaten. The balance of the state entreats Baker county not to elect this man. Every person who has a scheme to serve or a job to carry readily finds in him an active supporter. More than once the effort to get rid of wrongs intrenched in legislation has been prevented by this supple advocate of schemes against the public interests. The state is still carrying burdens which but for him it would have been rid of long since and judging from his past record it could afford to make a very liberal appropriation for his benefit on condition of his staying out of the legislature and troubling no more. All men of either party who are known to take the side of the lobby against legislation for the relief of the state ought to be marked by the people for defeat. Of A. J Lawrence especially an example should be made

Edison has recently been heard from again after a silence of several weeks. A New York paper reports strong indications that the Menlo park toiler and his associates are about to begin operations in the metropolis. Edison says the cost of lighting the city with his electric lamps can be computed to a cent and that it is found to be considerably below the present cost of gas for the same purpose. By further improvements upon his invention he expects to so reduce the cost as to almost throw gas out of competition. It is also said that a new map of the city below Grand street is being made preparatory to laying the first lines of wires and locating the high pressure engine to furnish the power

It seems necessary for the leading nations of Europe in order to enable them to live in peace to increase their armies still more. The increase of the German army will be followed by similar augmentation of the military establishments of other powers on the continent. In France a complete reorganization of the infantry and cavalry is purposed by the minister of war. In Italy also an increase of $2 000 000 in the ordinary votes of the military estimates for 1881 is contemplated. Nothing has yet been said about the increase of the Austrian army because Austria probably has as large an army already as she can possibly find means to support

2 H[UNDRED] DIFFERENT KINDS OF Blanks for Legal Commercial, Real Estate and Mercantile purposes, are kept in stock by Himes the Printer, Washington st Portland. His Real Estate Blanks will convey title from bottom of the earth to top of the skies. His matrimonial blanks will tie a couple so fast that nothing short of a Chicago divorce lawyer can separate em. And when you come down to Justices Circuit and County Courts, his blanks can't be beat. All of his blanks are thoroughly and scientifically constructed by one of Portland's most brilliant lawyers and H the P. hopes to merit a respectable share of public patronage on account thereof. Meanwhile careful attention will be given to all orders for printing and bookbinding.

WEATHER PROBABILITIES

SPECIAL DISPATCH TO THE OREGONIAN
WASHINGTON March 24—12:20 A. M [illegible] partly cloudy weather

A Close Scratch—Monday evening, [illegible] o'clock, Barny Cannon was standing in front of Banard's saloon at Salem when Patrick Foley came up and started to enter the saloon at which time Barney spoke to Foley, and as Foley turned [illegible] at the speaker, Barny fired a pistol [illegible] the ball passing near Foley's [illegible] Barny immediately broke at [illegible] but was pursued and [illegible] Marshal Minto in Tiger [illegible] house, he was taken before [illegible] and was committed till Tuesday [illegible] when he had a preliminary [illegible] appeared to have been an old grudge growing out of some domestic infelicity

Hospital Established—From a private source we learn that Dr L [illegible] of this city has in full operation an hospital and general medical dispensary at Celilo in the interest of the O R & N Co He has from 3 to 10 patients in hand a large number of whom are confined to their beds He proposes to follow up the line as it progresses towards completion, and devote his full time towards relieving the sufferings of those who may come under his care

Could not Agree—The case of the four Chinamen—Wong Gwa Wong Woom Won Gang Chu and Wong Beck Soo—charged with extortion was given to the jury in the circuit court at 2 o'clock yesterday after noon. After wrestling with the testimony for several hours, the twelve American citizens returned to the court room with the information that it was impossible for them to agree. They were consequently discharged

Memorial Services—Next Sunday morning, memorial services for the late Adolph Cremieux, the distinguished French writer and statesman, will be held at Beth Israel synagogue, corner of Fifth and Oak streets under the auspices of the Young Men's Hebrew Association Among other exercises there will be an address by Rev M May

Examination of Teachers — Public examination of teachers for Multnomah Co will commence on Saturday morning the 27th inst., at 9 A M, in the Park street school building. The examination will be continued and closed on the Saturday following May 1st. Candidates are requested to be on hand promptly.

Scottish Concert—Box Sheet —A large number of tickets for the Scottish ballad concert at New Market theater next Monday evening have been sold and there will be a rush for reserved seats The box sheet will be open at Bartsch's music store to morrow (Thursday) at 10 A. M

The Presbyterian Sociable. — The sociable given last night by the ladies of the Presbyterian church was a pleasant and successful affair. The attendance was large, the exercises brief but interesting the refreshments excellent and abundant and the receipts substantial.

Contract Awarded.—A private letter to a gentleman in this city states that the contract for building 63 miles of the Oregon Railway Company, limited, has been let to J B Montgomery, now in London

To be Tried To-Day—The cases of Chas Stompf and Annie Stompf, indicted under a charge of arson, will come up for trial in the circuit court at 9 o'clock this morning

Rehearsal Postponed—The regular rehearsal of the Handel and Haydn Society has been postponed from this until Friday evening.

Easter Ball.—The Turn Verein will give a grand Easter ball at their hall next Monday evening. An excellent time is anticipated.

DEATH OF FRANCIS CONNOR

THE VETERAN COMMODORE OF THE O S S CO'S FLEET

He Dies from a Stroke of Paralysis on Board the Oregon Yesterday—Sketch of His Life and Long Career in Western Waters [illegible]

[illegible] TRIBUTE TO A BRAVE AND LOYAL MAN

[illegible]

Commodore Connor was [illegible] years old. He first came to the Columbia in 18[illegible]. He was at that time first officer on board a [illegible] vessel which was [illegible] by [illegible] Flavel. He has since that time with the exception of a few years been running on our coast line. When not running between San Francisco and Portland he had command of steamers on the lower coast.

Commodore Connor has had command at different times of the *Columbia* the *Sierra Nevada* the old *Oregon*, the *Idaho*, the *Mohongo*, the *Oriflamme* the *John L Stephens* the *Geo W Elder* and lastly the new *Oregon*. Probably he has crossed the Columbia river bar a greater number of times than any living person. As a master Commodore Connor had few superiors. Cool headed careful, and brave to a fault, were the necessary qualities which he united with experience. No higher tribute can be bestowed on the dead than the statement that for [illegible] years he has filled positions of the highest trust with the strictest fidelity and faithfulness

Commodore Connor leaves a loving and devoted wife and an adopted daughter who has attained womanhood both of whom reside in San Francisco. About 4 o'clock the steamer crossed to the west side wharf when the remains were removed to the undertaker's where they were carefully packed in ice. The body will be sent away this morning on the steamer to San Francisco for interment.

Captain Jeson the bar pilot will take command of the steamer *Oregon* on her arrival at Astoria and take her to San Francisco

For many years the people of Portland have been familiar with the genial presence of Commodore Connor, and many hundreds of them knew him personally and esteemed him as a polished gentleman and a brave and skillful commander With the firmness in his manner requisite in his calling he combined a kindness of heart and a regard for the comfort and happiness of others that endeared him to all with whom he came in contact. But he is gone on his last voyage over the dark river of death out upon the illimitable ocean of eternity to return no more to the scenes of earth There are hundreds of hearts that will be saddened with grief at the news of his death and many tears of genuine sorrow will be shed over the spot where all that was mortal of him shall repose until the sea gives up its dead

ANNUAL MEETING OF PORTLAND SEAMEN'S FRIEND SOCIETY

The second annual meeting of this society was held in the hall of the Y M C Association last evening at 8 o clock

The president, Hon H W Corbett being absent from the city, Dr G H Chance, the vice president presided

Meeting opened with prayer by Chaplain Stubbs Mr E Quackenbush read the minutes of the last meeting which were approved

The auditing committee to whom had been referred the reports of the secretary and treasurer and of the chaplain reported they find the same to be accurate and not only exhibit great care and fidelity but showed that the finances are carefully disbursed and are found in a healthy condition

The thanks of this society by unanimous vote were passed to the Oregon Railroad and Navigation company the N P R R., the Independent Steamboat company and the Portland city press for numerous and important favors to the chaplain in the prosecution of his labors in this port Astoria and Puget Sound

The following board of directors Capts N Ingersoll and G H Flanders Dr Glisan Dr G H Chance and Mr Jas Steel were elected for three years ending March 24, 1880

On motion it was voted to publish the proceedings etc, etc of the Bethel in pamphlet form To Dr Chance, Mr G H Himes and Chaplain Stubbs was assigned the work.

The following resolution was passed to be presented on next Sabbath evening at the anniversary

Resolved, That it is the conviction of this meeting that the time has arrived to make a united and persistent effort to raise the $ 000 requisite to build and complete the Portland Bethel Home as originally proposed The American Seamen's Friend Society in New York having given encouraging assurances that they will contribute the last $1000 towards this object we hereby request and authorize the Chaplain Stubbs to present his subscription papers to the friends of seamen in this city and elsewhere

A vote of thanks was passed to the Y M C Association for the use of the hall this evening

On motion meeting then adjourned to the Congregational church on next Sabbath evening at 7 30 when the regular anniversary of this society will be held

CITY LICENSES

An Important Decision by Judge Bellinger

The City of Portland v C. M Patterson

[illegible]

It is a well settled principle of law that municipal corporations possess only those powers granted in express words and those necessarily implied or essential to the objects of the corporation Any fair doubt concerning a power is resolved by the courts against the corporation Any ambiguity or doubt arising out of the terms used by the legislature must be resolved in favor of the public and the courts adopt a strict rule in the construction of the powers granted (Dillon on Municipal Corp)

The power of the [illegible] to license [illegible] the provisions [illegible] of the charter [illegible]

It is insisted [illegible] that [illegible] as a tax upon vehicles as a class of property it follows that the council has power to require a license for vehicles used for pleasure or kept in the shops and warerooms of manufacturers and dealers. But such a power is of so unusual a nature and the exercise of it would be attended with such burdens upon a class of the inhabitants of the city that the intention of the legislature to confer it will not be implied

The power to assess levy and collect taxes for general municipal purposes not to exceed one half of one per cent (*in ad valorem*) which is taxable for state or county purposes is expressly conferred in the first subdivision of the section in question Under this provision all vehicles are taxed upon their value as property The authority to license vehicles must therefore be distinguished from that thus conferred to tax them

It is insisted on behalf of the defendant that the licensing of vehicles thus authorized is the exercise of a police power for the regulation of the business of carrying passengers and delivering goods and parcels that it is in effect a tax upon an occupation or business like the license tax required in the same section of auctioneers hotels peddlers pawnbrokers etc and that a wagon used in connection with some business or trade for the convenience of customers and to invite patronage is not within its scope.

In the case of the city of Memphis vs Battaile 21 Am Rep 255 it was held that where a city imposed a tax on every owner of a wagon or other vehicle kept or used for free delivery of goods to customers within the city it imposed a tax on drays belonging to an iron works company situated outside the city limits but used for the delivery of their wares within the city The city attorney relies upon the authority of this case

The principal question in this case was as to whether the words other vehicles used in the ordinance embraced drays It was argued that in view of the peculiar phraseology of preceding sections of the same ordinance upon the same subject it did not But the court as already stated held differently The court further considered that it was competent for the legislature to authorize the city to impose the tax Neither of these questions is involved in this case In that case the defendants insisted that they were not liable for the reason that they resided without the city but the court held that it was the privilege that was taxed, and such privilege being exercised within the city they were liable The charter authorized the licensing of vehicles used in the city and these words used in the city may be fairly construed to authorize the construction given In the case of Ould vs the City of Richmond (14 Am Rep 131) relied upon by the counsel for the city, it was held that under the general authority to raise revenue by taxes in such manner as should be deemed expedient a lawyer's license was taxable This was simply the taxing of an occupation The authority of the city of Portland to license the occupation of delivering goods is not questioned unless a free delivery as auxiliary to a business may be said to be an occupation within the charter I will refer to this question presently

The case of the City of Burlington vs Lawrence (1 Iowa 681) is also cited. In that case it was held that under a law authorizing cities to suppress and restrain billiard tables it was competent for municipal governments to license them—that a license might be adopted as a mode of restraint

The case cited by the counsel for the city of the Commonwealth vs Stodder et al (2 Cushing 63) is one where under an act of the legislature to prevent obstructions in the streets of cities and regulate coaches and other vehicles the city of Boston required a license of all persons using carriages for the conveyance of persons for hire in the city The ordinance also prescribed certain streets through which the defendants omnibuses should pass This the general law of the state expressly authorized

The defendants resided in the town of Roxbury and they contended that because of such residence the ordinance in question could not apply to them

The court held that the mayor and aldermen of Boston had the authority to prescribe routes of travel for the defendants omnibuses and to prescribe other regulations to prevent the obstruction of streets and provide for the public safety but that they had no right to require the license tax in question that the license operated as a direct tax upon the vehicle used that there was no authority for this provision of the ordinance that taxes must be levied under the provisions of general laws

It is thus apparent that this case furnishes no rule for the decision of the questions I am considering

In the case of Boston v Schaffer (9 Pick 415) it was held that money might be exacted for a license under an authority to license theatrical exhibitions upon such terms and conditions as may seem to the mayor and aldermen just and reasonable

In the opinion in the case of The Commonwealth v Stodder the court referring to the case of Boston v Schaffer say that the sum required to be paid for a license by the act under consideration was a mere provision for paying the expenses incident to the giving of a license and was therefore not liable to the objection that it was a tax but that under the act which the court was considering the dissimilarity in the sums required varying from one dollar to twenty precluded the court from any assumption of that sort.

The case of Gartside v The City of East St Louis (43 Ill 47) arose under a charter authorizing the city council to direct control and license all wagons and other vehicles conveying loads within the city and to prescribe the width and tire of the same The defendants lived without the city and used the wagons for the transportation of coal from their mine The objection was made to the charter that it was in restraint of trade It would scarcely be questioned that the city had power to regulate wagons conveying loads within the city and they were therefore clearly within the contemplation of the charter. It was held that the charter and ordinances were not in restraint of trade except in that limited sense applicable to all other licenses In that case it was a question as to the authority of the legislature in this instance and as to the intention of the [illegible] the court says [illegible]

In the case of Farmers v The City of Richmond (18 Rep 638) it was held that a butcher residing outside the city and using a wagon to carry meats within the city was subject to a license tax But the case is like that referred to in 43 Ill The charter in that case authorized a license upon vehicles kept for hire and authorized the city to regulate [illegible] vehicles using them in the city [illegible] pay tax thereon

All lots will be sold for $100 each payable in installments of $ per month or the small sum of 16⅔ cents per day No interest will be charged and a good and sufficient Bond for Deed will be given upon the payment of the first installment of $ and a Warranty Deed upon receipt of last installment both without expense to purchaser

Appreciation of Values.

By reference to *The Oregonian* of Feb 15th it will be found that city property has advanced twenty five per cent during the past year As there has been no excitement the rise is wholly attributable to the increasing immigration and the growing confidence inspired by our numerous railroad enterprises and the development of our many natural resources that have hitherto slumbered for lack of energetic men to develop them

It is True,

That of all real estate investments the homestead plan is the best and safest as all who invest are interested in making the whole property more valuable To illustrate suppose A builds a house on his lot and B owns a lot adjoining B gets the benefit of A's improvement while A is not injured thereby This philosophy will apply to the entire property

Wee have donated a lot to each of the principal churches for church purposes

In addition to the above two lots are set apart for public school purposes

Division,

The division of this property will take place when the lots are all sold or in any event not later than the

28th February, 1881,

at the Mechanics Pavilion commencing at 10 o'clock A. M public notice of which will be given by publication in two principal journals in the State.

It will be made in the manner decided upon by a majority of the purchasers in the Homestead Parties interested may appoint proxies to act for them if they desire to do so Parties who do not attend at the time of the division either in person or by proxy will be bound by the plan settled upon by the majority of those who do so attend

It is suggested by the purchasers that division might be made by placing the number of each lot and block in a wheel or box and the name of each party interested in the homestead in another [illegible] same will be drawn from one and a number from the other and the lot so drawn deeded to the person whose name is so drawn when all payments are made.

All but the first installment must be paid at the [illegible] Bank of Ladd & Tilton in the city of Portland

The home markets to-day show a good deal of activity but no special change in prices. Wheat is dull sale, the vessels at hand under charter having their cargoes all alongside and shippers showing no inclination to take up any new charters. San Francisco reports the market unsettled with more disposition by farmers to sell at current rates. At Chicago the cereal is still declining as will be seen by reference to our dispatches. The foreign markets are easier and 1d to 3d per cental lower. One cause for the general apathy on part of buyers is the fine weather England has had for the past ten days, and consequent predictions of a heavy yield in that country.

Nothing is being done yet in the local market in wool, although buyers are ready to make contracts at 5@8c higher than the opening price last year. Growers are disposed in many cases to do their own shipping, but it is doubtful if they can do better than by selling here, as there are many items of expense in transportation hence to the Atlantic seaboard with which those inexperienced in the business are by no means familiar.

The following dispatch was received by us to-day:

NEW YORK, March 23.—Oil rates advanced to 69 cents for April.

San Francisco Freights and Market.

[SPECIAL DISPATCH TO THE OREGONIAN.]

SAN FRANCISCO, March 23.—Bags and bagging—Wheat bags rather quiet but firm at 10¼c@10½c for spot lots, and 10¼c@10½c for May or June delivery. Wool bags are in demand at 47½c@55c. Potato gunnies 14c apiece. Hop cloth, 13c@14c per yard.

Coal—There is active demand for domestic soft coals and prices are steady. Coos Bay, $6 75@$7; Seattle, $6 50@$7 50; Vancouver, $6@$8; Wellington $8 50.

Coffee—Central American, 15c@17½c; Rio and Manilla, 15c@16½c; Ceylon, 20c; Java, 16½c; ground coffee, 25c.

Sugar unchanged.

Fresh Oregon canned salmon, $1 35@$1 40 for spot lots and $1 20@$1 25 for season's canning, deliverable in 60 days. Pacific codfish is jobbing at 3c@3½c in 50 lb bundles, 4c@4½c for selected in 100 lb cases, and 5c@5½c for boneless.

Leather—Sole, 25@33; harness, 32@40; skirting, 32@37½c; calfskins, 70c@$1 10 per lb, wax and buff leather, 18@20c per foot; bridle, $4@7 per side; kip skins, 35@60 per dozen.

Lumber—Wholesale rates, Oregon pine in rough state, $17@21; lath, $3 50; shingles, $1 75.

Metals—Pig iron nominal at $40@47 50 for spot lots and $5 off lots to arrive.

Powder—California blasting, $3 50 per keg; giant, 50c for No. 2 and 75c for No 1; Vulcan blasting, 75c for No. 1, 50c for No. 2 and 35c per lb for No. 3, with usual discount as to quantity.

Quicksilver—The average quotation is 39c.

Rice—Mixed China selling from first hands at 5c; most of Hawaiian table is in second hands and is jobbing at 7c.

Salt—California, $8 50@14 for coarse and $14@22 for fine.

Tea—Good medium grades of Japan jobbing at 40@45c.

Tobacco—Plug, 45@50c for jobbing lots of various brands; smoking, 35@45c; Connecticut leaf, $1 15@1 25.

Butter—Inquiry this morning light, and as supplies were larger than usual the market was anything but strong; still dealers were asking about the same figures, claiming that unless we soon had some rain present prices would be more than sustained. We quote good to choice at 25@27, inferior to ordinary 22@25c.

Oregon apples—The steamer yesterday brought from 115 to 170 boxes.

Freights—There is 15,000 tons of disengaged tonnage in port. Wheat charters are nominal at 35@40s according to size of vessel and destination.

NEW YORK FREIGHTS AND MARKETS.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, March 23.—Dullness is the prominent feature of the freight market via Cape Horn, and there is no prospect of any immediate recovery, as it is both too late and too early to make shipments for regular trade. However, it is thought that the arbitrary decision of the railroad manager who has charge of the California freighting department of the Pacific Mail steamers, will tend to turn shippers to clippers early next month. Previous to the arrangement with the Pacific R. R. the Pacific Mail Co. gave certain special rates for the month of March, at the same time stating that there would be four steamers, the last one to sail on the thirteenth. It seems now that the railroad manager will not acknowledge these contracts made by the Mail company, and either insists upon the tariff rate or refuses to carry goods. It is also understood that after the departure of the next steamer the rate will be further advanced, and will be firmly held against such shippers who broke their contract last fall, and those who have refused to make contract rates. Freight per clipper rather irregular and nominal. Steamer freights have been fairly active, but after the departure of the next vessel there will likely be a falling off as rates will be advanced. The steamer of Saturday has a very full cargo. The ship *David Crocket* has sailed with a cargo.

The market is generally quiet and lower in some instances.

Flour is demoralized and 10@20c lower.

Wheat—2c lower under revived pressure to sell with less export demand and foreign markets are lower. There are not many export orders here as foreign markets do not favor them, and freights are so much higher that they check export.

Barley—Dull and easy at 63@65 for two rowed, 67@70 for four rowed, 94@95 for No. 1 Canada.

Pork—Neglected.

Lard—Active and easier.

Rio coffee—Fair demand and firmer at recent reduction.

Refined sugars—Dull and weak, ⅛ lower on soft grades.

Teas—Fair business and firm.

Hides—Quite active, very firm, Cala 24.

Leather—Very firm tending upward.

Turpentine—Dull, 45½@46.

Petroleum—Quiet.

Crude sperm and whale oils without change.

Gold and Stock Company's Reports.

SAN FRANCISCO, March 23.

Receipts—2900 qr sks flour, 95,000 ctls wheat, nearly all aboard ship; 9000 sks potatoes, 18,000 doz eggs.

Butter—Choice, the market is weak and prices favor buyers.

Eggs—California, weak.

Salmon—Columbia river, standard brands, buyers and sellers at a complete dead lock.

Hides—Dry and salted kip, 19c; market strong.

Hops—Cal. choice sold at 40c.

Wheat—Offerings smaller daily. There were no transactions to-day of importance. Market unfavorably affected by foreign advices. Sellers' views were above buyers.

Oats—Feed, medium Oregon, $1 25; demand is for choice white, which is scarce.

Pelts—Short to long wool, 25c@$1 50.

Dried apples—Scarce, demand good.

CHICAGO MARKET.

CHICAGO, March 23.

Wheat—$1 15⅞ for May.

Pork—$10 47½ for May.

NEW YORK MARKET.

NEW YORK, March 23.

Wheat—Dull and lower at $1 35@1 42.

Flour—Dull and lower. Wool—Steady.

PHILADELPHIA WOOL MARKET.

PHILADELPHIA, March 23.

Wool—Strong. Medium Ohio fleeces, 65@67c.

Liverpool Breadstuffs Markets.

LIVERPOOL, March 23.—Breadstuffs, small business at lower prices. Wheat, 10s 6d@11s 2d per cental for average Cala. white; 11s 1d@9s for Cala. club; 11s@10 for red winter.

Receipts of wheat for the past three days—90,000 centals, including 84,000 American.

Chicago Wheat Market.

[SPECIAL DISPATCH TO THE OREGONIAN.]

CHICAGO, March 23.—Wheat unsettled, generally higher, closing steady at $1 15⅞@$1 16 cash; $1 15¾ for April, $1 16⅞ for May.

Philadelphia Wool Market.

PHILADELPHIA, March 23.—Wool firm, with an upward tendency. Oregon fine, 40c@45c; medium, 45c@50c; coarse, 40c@43c; Cala fine and medium, 35c@40c; coarse, 35c@37c; New Mexican and Colorado fine, 33c@40c; medium, 37c@40c; coarse, for carpets, 28c@33c.

Produce Receipts.

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia when a single bottle of DR. MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, smarting, inflammation, calculi, brick-dust deposit, or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM, the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 00 a bottle, or six bottles for $5. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a *quack nostrum*, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

H A M S! W H A M S!

SUGAR-CURED HAMS.

THEIR WELL-KNOWN DELICIOUS TENDERness and flavor is secured by their old-fashioned SLOW-CURING and SMOKING PROCESS.

DON'T BE IMPOSED UPON

By cheaper brands with which we cannot compete in price. Our Hams give satisfaction every time, and are 50 per cent. cheaper, when quality is considered, than many Hams offered you by some grocers who sell cheaper goods without reputation, so as to make a larger profit.

We are in receipt of **Whittaker's Celebrated Hams** by every steamer and will sell them to the trade in lots to suit, at the price of ordinary Hams.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast,

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaints and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

Catarrhal

POISON

Wei De Meyer's Treatise on Catarrh, explains the following important facts:

1. **That Catarrhal Colds** become a **poisonous infection**, at first local, and finally **constitutional**.

2. **That**, being constitutional, the infection is **beyond the reach** of mere **local** remedies.

3. **That impurities** in the nostrils, are necessarily **swallowed** into the **stomach** and **inhaled** into the **lungs**, thus **poisoning** the Digestive, Respiratory and Genito-urinary organs.

4. **That Catarrhal virus** follows the mucous membrane and causes **Deafness**, Dyspepsia, Chronic Diarrhea, **Bronchitis**, Leucorrhœa, and Consumption.

5. **That Smokes**, Douches, Inhalations, and Insoluble Snuffs, **cannot possibly** remove infectious inflammation from the organs named.

6. **That an antidote** for Catarrh must possess an **inoculative** affinity for, and the quality of being **absorbed by**, the purulent mucous **wherever located**.

Based upon these plain theories, Dr. Wei De Meyer's Catarrh Cure has proved to be **infallible**. It not only **relieves**, **it cures** Catarrh **at any stage**. Home testimony:

Cured! Cured! Cured! Cured!

W. D. WOODS, 467 Broadway, N. Y., Cured of Chronic Catarrh.
F. J. HASLETT, 859 Broadway, N.Y., 1y'rs Catarrh.
G. L. BRUSH, 443 Broadway, N.Y., 10 y'rs Catarrh.
S. BENEDICT, Jr., Jeweler, 697 Broadway, N. Y., (lady friend), cured of Chronic Hay Fever.
MRS. EMMA C. HOWES, 39 W. Washington Square, N. Y., cured of 30 years Chronic Catarrh.
REV. GEO. A. REIS, 109 Jay St., Brooklyn. "It restored me to my ministerial labors."
REV. CHAS. J. JONES, New Brighton, S. I. "Worth ten times the cost."
REV. ALEX. FARES, Cairo, N. Y. "It has worked wonders in six cases in my parish."
L. F. NEWMAN, 305 Fulton St., Brooklyn, cured of 4 years Chronic Catarrh.
MRS. J. SWARTZ, JR., 200 Warren St., Jersey City, cured of 18 years Chronic Catarrh.
&c. &c. &c. &c. &c.

A real cure for this terrible malady, is the most important discovery for the relief of human suffering, since **vaccination**. **Wei De Meyer's Catarrh Cure** is sold by all **Druggists**, or **delivered** by D. B. DEWEY & Co., 46 Dey St., N. Y. for **$1.50** a package. To Clubs, **six** packages for **$7.50**. **Dr. Wei De Meyer's Treatise**, with full explanations and overwhelming proofs, is **Post-paid** and **sent free** to **anybody**.

ASSIGNEE'S SALE. IN RE OREGON IRON Works, bankrupts. In Bankruptcy. By virtue of an order of the Honorable District Court of the United States for the District of Oregon, made on the 26th day of February, 1880, the undersigned, Assignee of the "Oregon Iron Works," a corporation bankrupt, will, on Thursday, the 29th day of April, 1880, at 10 o'clock A. M., sell at public auction, on the premises at Albina, opposite Portland, Oregon, the following described real and personal property, belonging to said estate, to wit: That valuable property known as the "Oregon Iron Works," consisting of River Lots Nos. Sixteen (16), Seventeen (17) and Eighteen (18), situated in the town of Albina, Multnomah county, Oregon, together with the wharves, buildings fixed and movable machinery and tools pertaining thereto. The Iron Works are the most complete and best fitted up with first class machinery and conveniences of any north of San Francisco, and comprise a first class machine shop, together with pattern shop, blacksmith shop, moulding room and storage building, and a first class boiler shop, newly built, with new machinery with the latest improvements. The Works are fitted with machinery adapted to the turning out of light and very heavy work. The stock of patterns is very extensive and valuable. The blacksmith shop is provided with a large steam hammer and every convenience. The buildings are well and substantially built, conveniently located on the river, with wharves connecting main buildings and boiler shops with the river. These works have facilities for turning out machinery of all kinds superior to any shop north of San Francisco, as they are fitted with large planers, boring mill and machinery of large calibre, all set on solid masonry. Also, a large assortment of bar iron and steel, boiler plate, boiler tubes, rivets, tube expanders, tools of all descriptions, brass fittings, steam gauges, etc., etc. The above described property is to be sold as a whole. Said sale is to be made for gold coin in hand, free from all judgment or other liens. For additional description of machinery, etc., connected with the Works, apply to Gilman & Co., Auctioneers, No. 42 First street, or the assignee No. 114 First street, Portland, Oregon.

SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

NEW YORK, March 24.—The *Public's*

clearing house exchanges, except San

decrease of 10 per cent. Only a small
New York's increase is attributable

banking operations at some other ci

where is not very much greater than
erate advance in prices. Banks are
very heavy loads on account of sp

of a very general and wholesome acti
every branch of business, and a
moderate reaction in prices if it should

The Greed of the Paper Ring.

[New York Journal of Commerce.]

Two things have conspired to put up
price of paper. One is the combinat
manufacturers. We have the most direct
positive proof that the exact prices to be
from month to month for the white
paper is determined in joint conclave by
"American Papermakers' Association,"
conformity thereto enforced among al
members. The product of the smaller
whose owners are not in the association
have not sufficient means to carry their st
or to enforce the advance agreed upon
taken by the wealthier manufacturers,
thus the greed of the monopolists is sat
without the fear of competition.

Such a combination, like the attempted
actions in the coal trade, would break
however, but for the aid of the governm
in protecting, through patents and the
the manufacturers of wood pulp, which
the article now most extensively used in
production of printing paper. This is
other, and the main, prop of the paper ri

The production of wood pulp in this co
try is in half a dozen hands, who have
legal monopoly of the business. It can
imported from Norway, to cost there only
little over one cent a pound, but it is v
bulky, pays heavy freight, 20 per cent du
and wastes nearly 50 per cent in use.

It can be made in this country at a
cost of about one cent a pound, but is n
sold at three or four cents. The monopoli
would not have so fine a time of it but
of the leading members of congress are amo
the largest owners, and their influence
still combined are likely to stave off any l
lation in favor of the people.

The United States Senate.

[From the New York Tribune.]

There are five States now represented
democrats in the senate, the legis
tures of which must be carried
the republicans this year if th
would control the upper branch of co
gress after 1881. These are Connecticut, N
York, New Jersey, Pennsylvania and
diana. No one of them is a safe republic
state, with perhaps the exception of Penns
vania, without the nomination of a pre
dential ticket in which all sections of
party can heartily concur. Should the
publicans lose the legislature of any one
these states, or be defeated in California,
control of the senate will remain in the ha
of the democrats for the next two years,
probably during the whole of the next pr
dential term. For in 1883 there will be
three democratic vacancies which the
publicans can have any hope of filling, nam
ly, New Jersey, Illinois and Oregon, only o
of which can be counted upon with any
gree of certainty. Considering these facts,
tyro in politics can see how important it
that no useless risk be taken in selecting
standard-bearer of the party. Besides,
influence which a wise and safe nominati
for president would have in aiding to reg
control of the lower house of congress oug
not to be ignored.

Another Excrescence of the School System

[From the Sacramento Record-Union.]

We are at a loss to account for the sudd
passionate yearning for normal schools whi
has recently manifested itself. At prese
there are propositions before our legislatu
for five of them. That gives a normal scho
for every 200,000 inhabitants. We cann
see the utility of such a multiplication
training schools for teachers, and we do n
believe that the legislature is justified
spending the public money upon more tha
one such institution. Indeed, we are di
posed to think that it may be undesirab
even to endow one such school again, unle
some guarantees are given that the teache
who receive their training there will compe
sate the state for its outlay by devoting a ce
tain definite period to the work they hav
been prepared for. In the past it has been
standing source of complaint that the grad
ates of the normal school for the most pa
married soon after leaving the institutio
and that a very small percentage of them b
came teachers. It is evidently useless for t
state to spend money in training young me
and women for matrimony; and we are co
vinced that the people are not willing to
taxed for any such purpose.

Pertinent Inquiry.

[From the New York Tribune.]

The argument of Gen. Grant's supporter
if we understand it, is that they can take t
republican party within six inches of the p
cipice of defeat, and still save it. They a
mit that there is a strong sentiment against
third term, but insist that General Grant ca
pull through. Why is it necessary to put
party in such jeopardy? There are in t
United States probably not less than 1,0
